

Cooperative Sector Election Procedure

The Cooperative Sector has adopted the following alternative election procedures:

1. The Sector selects a primary election representative to conduct the elections.
2. The primary election representative solicits nominations for the MRC standing seats and alternate seat from the Sector representatives.
3. If the number of nominees equals the number of open seats, then the primary election representative emails the list of nominees to the Sector member representatives and requests email confirmation of acceptance of the nominees.
4. Once confirmed, the primary election representative reports the election results Texas RE.
5. If there are more nominees than the number of open seats, then the primary election representative requests that Texas RE conduct the election. Texas RE uses the following process to conduct the election:
 - i. The list of nominees and their bios are posted to the Membership page of the Texas RE website.
 1. Texas RE facilitates the election using an electronic means approved by the Corporate Secretary and sends an email to the Sector representatives with instructions for casting ballots.
 - ii. Ballots are accepted for a ten-day period beginning the first business day following the close of the nomination period.
 1. Per the bylaws, the nominee receiving the highest number of votes in each Sector shall be elected to one Representative position to be filled from that Sector and the nominee receiving the second highest number of votes shall be elected as the second Representative position for that Sector. To be elected on the first ballot, a nominee must receive a number of votes equal to a simple majority of the Members in the Sector casting votes in the election. If no nominee in a Sector receives a simple majority of votes cast in the first ballot, a second ballot shall be conducted which shall be limited to the number of candidates receiving the three highest vote totals on the first ballot. The nominees receiving the two highest totals of votes on the second ballot shall be elected to the Representative positions for the Sector.
 2. This Sector will select an alternate. All nominations are considered the same. One election is held and the two individuals receiving the most votes become the standing representatives and the person receiving the third most votes becomes the alternate.
 3. Only one ballot per Member company is accepted. If both the primary and secondary membership representatives respond, only the primary representative's ballot will be counted.
 4. A quorum must be met in each round of balloting. To reach a quorum, a majority of the Member companies in the Sector must submit a ballot.

6. On the first business day following the conclusion of the ballot, the MRC roster with the Sector-approved representatives is posted on the Texas RE website.
