Antitrust Admonition

Because this event brings together market participants who may be viewed as actual or potential competitors, we must be mindful to conduct it in a manner that is consistent with the antitrust and competition laws. Participants should not disclose non-public, proprietary, or competitively sensitive information.

Attendees should exercise independent judgment and avoid even the appearance of discussions of agreements or concerted actions that may be viewed as restraining competition. Any questions on Texas RE's Antitrust Compliance Corporate Policy may be directed to Texas RE's General Counsel.

Texas Cybersecurity Monitor Outreach Program

**Presented by:
Chuck Bondurant**

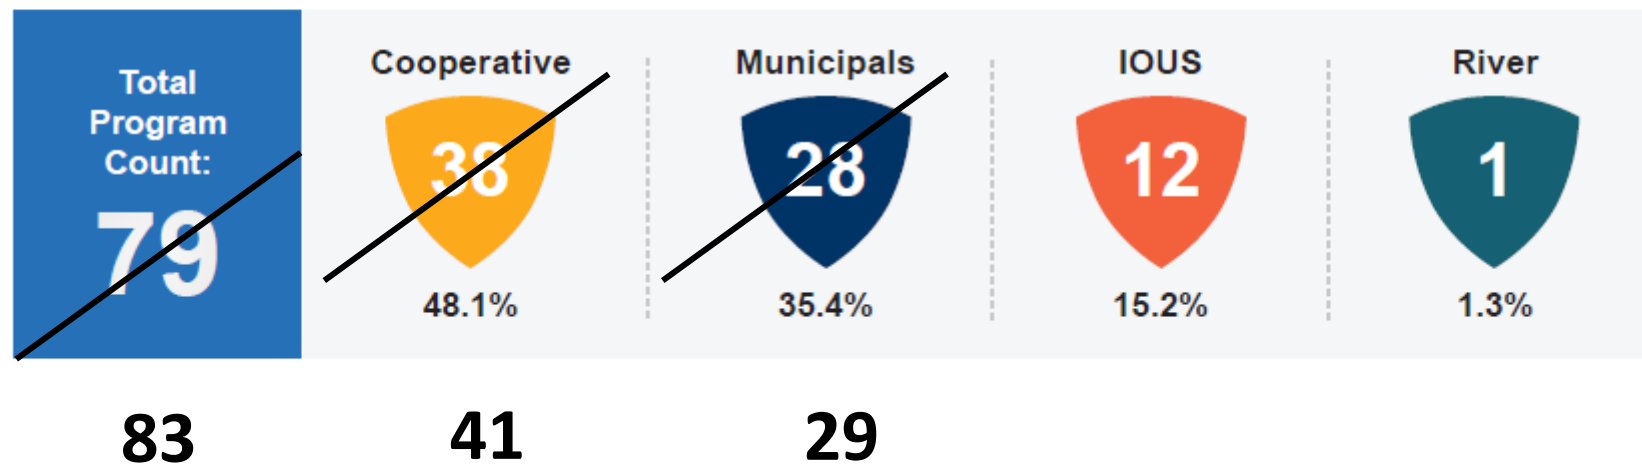

Agenda

- Outreach Participants
- Quarterly Security Meetings
- Look Back on 2025 Events/Opportunities
- Special Highlight of Academia-Industry Collaboration
- Questions

Outreach Participants

Outreach Program Membership Update

Security Meetings

PURPOSE

To foster greater communication between utilities regarding cybersecurity threats, trends, and best practices

ANNOUNCEMENTS

Provides a formidable communications channel directly to the utilities

EXAMPLES:

Emergency Security Meeting was organized to discuss and share potential impacts following increased geopolitical tensions with Iran

DISCUSSION TOPICS

Observational feedback and Survey Assessment results largely drive the selection of topics, invited expert speakers, and peer-to-peer discussions

PROGRAM TRIAL

Non-Participant Utilities are invited to participate and see for themselves the networking and educational value of the Outreach Program

2025 Events/Opportunities

- UTSA Technical Courses
 - Wireshark 101
 - Port scanning Essentials
 - Data Leakage Search (October 22nd)
- Emergency Security Meeting
- Academia-Industry Collaboration
- 2026 Cybersecurity Symposium Planning Committee

Academia-Industry Collaboration

Informative Document on Collaborating with Academia served two purposes:

- promote collaboration between Texas electric utilities and Texas colleges and universities as it pertains to cybersecurity resources; and
- to walk through the process of establishing relationships with academia, from targeting potential collaboration and examining where support is needed to establishing connections for grant funding, project work, and hiring students

This document was put together with insight from Texas A&M University, the University of Texas, Texas State University, and Texas Tech University.

What are your questions?

Thank You!
